Executive Summary: Market Breadth

Automated Scan Results: Of 21 tracked assets, 11 are in constructive trends (Stage 2) and 10 are in corrective phases. The report below splits these assets by SECTOR to highlight industry rotation.

Global & Macro-Economic Context

Geo-Political Risk Level: **HIGH**

Current Geopolitical Risk is rated HIGH. This is driven by elevated Crude Oil (\$92.45) and Gold (\$4360.0), indicating safe-haven demand amidst global tensions.

Benchmark	Value	Change %	Trend
Nifty 50	22,912.40	1.78%	UP
India VIX	24.74	-7.44%	DOWN
USD/INR	93.77	-0.14%	DOWN
Crude Oil	92.45	4.9%	UP
Gold	4,360.00	-1.0%	DOWN
US 10Y Bond	4.41	1.75%	UP

Macro-Economic Outlook:

Neutral Macro Setup: Currency and Yields are range-bound. Domestic triggers (Earnings, Budget) will drive market direction. High Volatility (VIX 24.74) warrants tighter Stop Losses.
